

DATE: April 4, 2008

POSITION TITLE: Designer

POSITION DUTIES: Develop, design and evaluate kayaks. Combine artistic talent with research on product use, marketing, and materials to create the most functional and appealing product design. Prepare sketches of ideas, detailed drawings, illustrations, artwork, or blueprints, using drafting instruments, paints and brushes, or computer-aided design equipment. Direct and coordinate the fabrication of kayak models or samples and the drafting of working drawings and specification sheets from sketches. Confer with engineering, marketing, production or sales departments, or with customers, to establish and evaluate design concepts for kayaks. Present designs and reports to customers or design committees for approval, and discuss need for modification. Evaluate feasibility of kayak design ideas, based on factors such as appearance, safety, function, serviceability, budget, production costs/methods, and market characteristics. Research kayak production specifications, costs, production materials and manufacturing methods, and provide cost estimates and itemized production requirements.

REQUIREMENTS: Bachelors Degree or foreign equivalent in Industrial Design plus at least twenty-four months experience in the job offered
